

ZIMBA combines a range of essential trace minerals complexed with organic acids, plant stimulants and beneficial biology to maximise plant uptake. The end result is improved phenological processes delivering optimum plant performance.

UNIQUE FEATURES:

- Chelated micronutrients for optimum plant uptake
- Improve flowering, fruit set, plant growth & yield
- Organic acids & natural plant extracts to help crops achieve their yield potential
- Helps plants maintain peak performance even under stressful conditions
- Improves disease resistance in plants
- Compatible with fertilisers and most pesticides
- Highly concentrated & effective at low doses
- Safe to use & easy to mix

DRUM SIZE 20L • 200L • 1000L

Advance ZIMBA

ZINC + IRON + MANGANESE + MOLY + BORON + ORGANIC ACIDS

APPLICATION TIMING	LITRES/HA
Commencement of flowering	2-4L
Fruit set	2-4L
Key periods of temperature stress	2-4L
With nutrient applications	2-4L

Application Method: Fertigation or foliar spray.

Application Notes:

Do not apply with Copper Fungicide. Dilute with 70-100+L water/HA. If using high volumes of water for foliar sprays use 500-1000mls/100L water.

Ingredients:

Zn 4.2%, Fe 1.6%, Mn 1%, Mo 0.15%, B 4.5%, organic acids, complex carbohydrates, beneficial biology.

Compatibility: Compatible with tech grade fertilisers & a range of pesticides. Always conduct a 'jar test' prior to tank mixing. Caution needs to be taken when mixing with pesticides as potential crop damage could occur. Thoroughly decontaminate tanks and spray equipment before use particularly before applying to sensitive crops. Clean the entire sprayer system, not just the tank.

Storage: Avoid exposure to direct sunlight and store in a cool dry place. Ideally use within six months.
