CHARACTERISTIC

Vital Power COPPER is a unique formulation with copper (Cu), supplemented with carbohydrates and naturally occurring antioxidants to enhance absorption and systemic characteristics of copper.

Vital Power COPPER not stain or residue and can be used in integrated production programs.

Authorized for use in organic farming.

MODE OF ACTION

Vital Power COPPER is used as copper source at a time when growing should promote respiration and photosynthesis to increase its development. Parallel enable mechanism plant self-defense, due to induction of phytoalexin biosynthesis and polyphenols.

INSTRUCTIONS AND DOSAGE

Foliar application: generally using a dose of 200-300cc per 100 liters of water. (not exceed 2-3 l / ha).

Application via fertigation: generally use a dose of 2.5 to 3.5 l / ha.

In copper sensitive crops (stone fruit, grapes, etc.), weather conditions and / or stress situational plants, used only by fertigation.

Preferably use only, not mixed with other products. Making applications preferably in the morning or evening, avoiding the hours of high temperatures.

READ THE LABEL BEFORE USING.
SHAKE WELL BEFORE USING.
